McPHERSON & THOMPSON,  
—PROPRIETORS—

West End, Moore County, N. C.

Running far back beyond the  
memory of the earliest settlers of  
Moore County, North Carolina,  
there has bubbled forth from a solid  
rock-bed some sparkling springs, the  
flow of which forms a little rivulet  
of clear, cold, effervescing water,  
carrying in its liquid depths many  
of Nature's remedial and curative  
qualities.

These have long been known to  
the neighborhood as

## Jackson Springs.

For many years, that the waters  
of Jackson Springs possessed min-  
eral properties which were power-  
ful remedial and curative agents  
for indigestion, dyspepsia, cystitis,  
dropsy, diarrhoea, and, in fact, all  
debilitating affections, was known  
only to the few who had located and  
made their homes in the immediate  
neighborhood. But so remarkable  
had been the effects upon those who,  
after finding their medicinal qual-  
ities had subjected themselves to  
their influences, that their reputa-  
tion could not be confined to so  
small a limit, and rapidly through-  
out Moore and into adjoining coun-  
ties, went the glad tidings to the  
afflicted ones.

Visitors from the surrounding  
country became frequent and nu-  
merous, and their stay of longer  
duration, to the extent that many  
small cabins were erected, and often  
whole families would drop in and  
remain for a week or more; cooking  
in the open air, sleeping in tents or  
wagons, and caring for themselves  
in the old-fashioned camp-meeting  
style.

More recently the reputation of  
Jackson Springs Water became so  
much talked-of, that very shortly a  
party of gentlemen sought for and  
obtained an option upon the Springs  
and some 700 acres of long-leaf pine  
and deep sandy land surrounding  
it. Samples of the water were  
taken to our State Agricultural  
Experiment Station for analysis, the  
result of which is as follows:

ANALYSIS No. 6,147.  
NO. CA. AGRICULTURAL DEPT.  
EXPERIMENT STATION.

RALEIGH, N. C., Jan. 3, 1890.

SIR:—The sample of mineral  
water sent to the Station for analy-  
sis, in a demijohn, marked P. M.  
Wilson, contains an evaporation,  
per U. S. gallon—

To P. M. WILSON,  
Raleigh, N. C.

Upon receipt of this analysis the  
option was closed, and the pur-  
chasers have erected near the  
Springs a new and comfortable  
hotel, fitted it out anew, and it is  
now open to the public as

## Jackson Springs Hotel.

This new health resort is situated  
four miles from West End, on the  
Aberdeen and West End Railroad,  
about fifteen miles southwest of  
Southern Pines. The Aberdeen  
and West End Railroad is a branch  
from the Raleigh and Augusta Air-  
Line Road, and is the individual  
enterprise of Mr. A. F. Page, whose  
money paid for its entire construc-  
tion and equipment.

Jackson Springs Hotel is situated  
in the very heart of what is known  
as the

Long-Leaf Pine and Deep Sand  
Section

of North Carolina, and which has  
been so well termed the great San-  
tarium for those suffering from asth-  
matic and pulmonary diseases. The  
climate being one of the most del-  
ightful in the South, having natu-  
ral deep sand and drainage, and  
balmy healing odors of the long-leaf  
pine, the invalid cannot help but  
improve from the day of his or her  
arrival.

The neighborhood is settled by  
the descendants of that hardy,  
brawny and hospitable race,  
the Scotch, whose hearts are ever  
open to welcome all who come  
among them.

The value of the Jackson Springs  
Water as a remedy for and cure of  
indigestion in all of its forms, par-  
ticularly dyspepsia and diarrhoeal  
diseases, kidney and bladder trou-  
bles, dropsy, cystitis and all debili-  
tating causes is well known.

The healing influences of inhaling  
the odors of the long-leaf pine  
and living in and breathing the  
pure atmosphere of this deep sand  
drainage is not to be disputed.

We desire to extend to all who  
are sufferers from these terrible dis-  
eases all the benefits which Nature  
has so bountifully bestowed upon  
us. To this end we have opened  
the Jackson Springs Hotel, and in-  
vite the public to its hospitality at  
reasonable rates.

Read carefully the following tes-  
timonials from those who have been  
benefitted and cured by the use of  
the Jackson Springs Water:

Rev. W. S. Lacy, D. D., Think It  
Effects Marvelous.

MESSRS. MCPHERSON & THOMPSON,  
West End, N. C.  
Dear Sirs:—I am very happy to be able  
to give you my testimony to the ex-  
cellence of the Jackson Springs Water as  
a natural remedial agent, indeed a spe-  
cific, in all forms of dyspepsia, and as a  
remedy when the digestive powers have  
been weakened by long debility, dis-  
ease, or have been over-taxed and dis-  
ordered.

In my own case having suffered from  
severe attack of dyspepsia in February  
and March, 1884, after recovering from  
6-weeks' confinement and much long  
illness, early in April with appetite  
very poor and hard to digest, and being  
much weakened by protracted suffer-  
ing, I attended a meeting of Presby-  
tery at Jackson Springs, remaining six  
days. I drank the water freely and its  
effects were marvelous. My strength  
rapidly returned, my appetite was re-  
stored, and my improvement was, ever  
for so short a time, very marked, and  
the effect continued long after my re-  
turn home.

Mrs. Lacy was a sufferer from dys-  
pepsia in aggravated form for two years.  
That she was much benefitted and  
continued for five months to her bed  
she first used the water bottled, and as  
soon as she could bear the journey she was  
taken to the Springs, remaining three  
weeks. The water has proven so ben-  
eficial in her case that it is a matter of  
wonder and thankfulness to all her  
friends. She visited the Springs  
second summer with like marked im-  
provement, and it is to her a veritable  
panacea, a pool of healing, a Mecca  
of health. Who never jaded or run  
down, or whenever feeling depression  
or suffering occasioned by indigestion,  
a week or a month at Jackson Springs  
is the potent remedy that answers all  
demands. Very truly yours,  
WM. S. LACY.

The Manse, 68 Bush St.,  
Norfolk, Va., May 1, 1891.

Packed for Shipping.

This valuable water is packed for  
shipping purposes, in flint bottles,  
six to the gallon, and two or four  
dozen bottles to the case. The very  
strong mineral qualities make this  
water so effervescent it cannot be  
packed in large bottles or casks.

## SALE OF LOTS.

One week ago we commenced the sale  
of building lots in Northeast Raleigh, on  
the monthly payment plan, or allowing  
the purchaser to pay one-fourth the price  
cash and carry the balance as long as forty  
years at 6 per cent.

This proposition astonished the natives,  
and when they saw the lots and prices  
they were still more astonished. The re-  
sult was that we sold more building lots  
last week than were ever sold in Raleigh  
in the same length of time. More are go-  
ing to be sold this week. There were only  
ninety-five of them—they will be all gone  
in a few days more. The purchasers are  
among the best people of Raleigh. We are  
not selling to any but good people. All  
white. If you would like to see these lots,  
let us know, and we will wait on you in-  
stantly. Don't look at them unless you  
want to buy; for you can't help it when  
you once see them and find how low they  
are offered.
